\$320

Each item is thrown or hand built out of a variety of stoneware clay bodies, then meticulously decorated using a combination of sgraffito and hand painting designs.

The ceramic items are then bisque fired.

Layers of coloured slips and underglazes are then applied into the design work and a clear glaze is also applied over this.

Then the item is glaze fired.

Finally the items have had gold lustre hand painted into details of the work then fired for a third time.
